

Trinity Lutheran Preschool

Under the guidance of a teacher certified in early childhood education and with an emphasis on kindergarten readiness, your child will be introduced to the alphabet, numbers, and shapes in a positive, social-based setting.

Our curriculum includes activities to encourage development with small and large motor skills, early math concepts, language, science, art, and music.

Sessions offer enrichment and learning through fun participation with scheduled days for field trips, chapel, and cooking. A classroom computer with age appropriate software is incorporated in activity time.

It is essential that your child's preschool experience be a positive one. At Trinity Lutheran Preschool we strive to provide one.

Goals: Our goal is to provide a setting for each child to grow in the following areas through formal and informal experiences:

Self:

- To love and accept self.
- To feel accepted and loved.
- To feel secure in the environment.
- To discover things one can do.
- To grow in ability to cope with a wide range of feelings.
- To grow in ability to trust self.
- To develop interests and experiences which broaden the child's aptitude for future learning.

God and Jesus:

- To enjoy the love and friendship of God through Christ Jesus.

Family:

- To associate experiences at home with those at preschool.
- To share preschool experiences with the family.

Others:

- To develop happy relationships with other children.
- To recognize and respect the rights of others.

Nature:

- To enjoy, observe, and protect the wonders of God's creation.

Preschool is held September through May for children who are 4 years old.

Our sessions are Monday, Wednesday, and Thursday from 9:00-11:30 a.m.

Registration Fee: \$40 Monthly Tuition Fee: \$90 Class Size: 10 Children
